Gary Roberts is now teaching the Orientation Class

Reminders:

- A) Remember that there must be at least 2 people at the shop to open the shop – applies to monitors who open the shop in the AM as well
- B) Please check the stop saws after use to make sure that they aren't clogged up with pieces of wood – if they are please clean them out. There are ways to keep this from happening – Tape over blade area. Dave B. presented new procedure for table saw to stop small slivers of wood from clogging the suction system. The blade plate cover is to be removed and left off for next user. This requires everyone to check the condition down around the blade for clogs, scraps and sawdust. The Maintenance crew fixes saws, it doesn't clean saws.
- C) Floor Managers – PLEASE check the vacuums on your watch – often they are left completely clogged
- D) Lathe users: – periodically sweep the walkway when you are working so that people don't slip on the debris

E) Clean carts before you put them away.

Discussion: Should we replace the Styrofoam cups with something more environmentally friendly? Jim Jones has a solution for this. We will investigate and get back to the club.

Locker report – Some new compact lockers are now available. Signup sheet for all other lockers in hallway.

New schedule for 2020 – General meeting will be changing location from time to time. Be sure to check location before meeting.

CNC discussion – Look for more details from Terry Z. with presentation on possible CNC purchase at next meeting.

Craft Fair Nov. 2nd – Sign up starts September 23.

Sellers must have 6 credits to sell. Community table will be available for people who have 5 items or less to sell. Community table sellers must help manage table.

Shop use: Should we be open on Sunday morning. Vote was taken; shop will now be open Sundays 8-4 as soon as it is cleared with the rec center.

Cleaning will be every Saturday starting now so clean off your benches on Friday afternoon

Toy Program will now store items above lockers by cribbage table
