

Natural Edge Bowl Demo

Natural Edge Bowls as seen below, also called live edge bowls are unique bowls that use the natural contour of the bark side of a log as the top rim edge of the bowl.

The demonstrator, Bill Kram is an experienced wood turner who will turn a Natural Edge Bowl in this demo will explain key points such as balance, maintaining bark and shaping. This two-hour demo will be at no charge.

There will be a class (three students) on week following the demo.
