

Training for XTool S1 Laser: Introduction to Creative Space Software and Operation of the S1 Laser

Teacher: Bill Gentry

Fee: \$15

Time: 3 hours

Pre-requisites: None

Max Number of Students: 6

In this course, you will be introduced to the capabilities of the S1 laser and how it compares to other lasers. The general components of the laser and the accessories available for use will be explained. The main features of Creative Space (software to design projects and run the laser) will be demonstrated. You will practice with Creative Space and design some simple projects. Importing projects and graphics will be explained. The relationship of the laser settings to the project and the operation of the laser will be introduced. We will then use the laser to produce a few projects. This course is designed to introduce you to the operation of the software and the laser such that you can do simple projects.
